# PISCINE CONNECT - A TOOL AT THE SERVICE OF THE SECTOR, SUPPORTING BUSINESS GROWTH

Organised at the usual dates for Piscine Global Europe, on **17 and 18 November** this year, Piscine Connect is a digital solution proposed to professionals in the pool and spa sector, allowing them to interact and exchange ideas during the classic season for launching innovations and new developments on the market, to network with new contacts, and hence to meet the deadlines imposed by suppliers' sales calendars.

This event allows all players in the sector to benefit from an opportunity to interact and meet, during the sales launch season. It is a tool at the service of the Pool & Spa sector, designed to meet the requirements of suppliers and buyers. **Thanks to Piscine Connect, professionals will be able to discover the new developments and innovations on the market.**

This new digital event also facilitates interactions and networking between all professionals, helping them to build their contacts. Manufacturers and buyers can network, exchange ideas, organise business meetings via videoconferencing and develop their business activity.

# PISCINE CONNECT - THE DIGITAL EVENT FOR THE POOL & SPA SECTOR

**Piscine Connect is a 100% digital event that aims to promote innovations and new developments and to develop business opportunities between players in the sector.**

Accessible for free via a web platform and a mobile app, Piscine Connect is designed for all professionals in the Pool & Spa community: suppliers in the sector, and national and international buyers and decision-makers.

## PISCINE CONNECT IN FIGURES

**2 DAYS** of business

**24 NEW PRODUCTS**  
presented by suppliers

**36 WEBINARS**  
in French and in English

**More than 220 PARTICIPATING**  
suppliers

## A new offer promoting innovations and new developments

This new event experience aims to allow all those involved in the Pool & Spa sector to take part in live interactions and to discover, in a preview, the new developments and innovations in the Pool and Spa sector thanks to the platform **dedicated to new developments**.

The participants will also be able to participate in **webinars** hosted by experts in the sector and partners of the exhibition. These interactive webinars are an opportunity to find out about the latest developments in the Pool and Spa markets and to discover how to make the most of the latest innovations and trends.

## A solution to build business opportunities for the players

**Piscine Connect is a tool at the service of development within the Pool & Spa sector. A digital event, it has the same Business DNA as Piscine Global Europe and therefore offers all professionals the opportunity to:**

**Participate in high-quality business appointments** via the videoconferencing meetings platform, allowing them to develop business opportunities and expand their network efficiently and simply.

**Consolidate their professional network** using the networking solution, including a chat room and automatic profile suggestion functions for effective and rapid identification of new contacts that correspond to their project or activity.

**Develop their business without leaving their office** and hence continue to develop their activity and create new opportunities.

# ZOOM IN ON THE INNOVATIONS AND NEW PRODUCTS PRESENTED ON PISCINE CONNECT

**List of New products  
as of November 09, 2020**

**Find all the products  
on the Piscine Connect  
platform**

## ABRIDEAL

### Partnership campaign

Abridéal is launching its partnership campaign for pool specialists, landscape architects and other creators. Would you like to take your company to the next level and collaborate with the top specialist in pool covers and shelters? Contact us and let's talk about our future partnership!

<https://www.abrideal.com/espace-partenaire/>

## BIO'R

### An eco-friendly air dehumidification system for pools

Simple to set up, economical since no refrigerating fluid or compressor is used, and therefore also eco-friendly!

Our solutions correspond perfectly to the demands of pools and other very humid environments alike.

<https://www.bio-r.com/piscines>

## BIO-UV GROUP

### O'CLEAR – The best disinfection concept

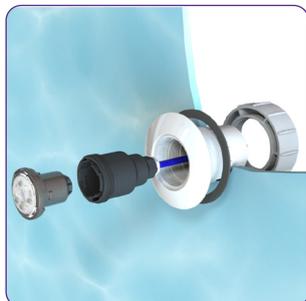

BIO-UV Group, a specialist in ultraviolet water treatment for the last 20 years, is presenting its recent new water treatment concept, combining the best aspects of the two technologies currently on the market: UV rays and salt chlorination. O'Clear® UV treatment guarantees high-performance disinfection each and every time.

The effect persists in the pool thanks to dedicated electrodes, specifically designed for use with the O'Clear® UV treatment and with just 0.5g/litre of salt. The disinfection system is interlocked with the pool filtration.

Result: perfectly pure and clean water.

<https://www.bio-uv.com/le-traitement-automatique-oclear>

## CCEI BLEU ELECTRIQUE

### MICRO PLUG-IN-POOL

Micro Plug-in-Pool allows you to hold concentrated technology into your pool. It is the result of several years of research on LED lighting miniaturisation and induction technology. Micro Plug-in-Pool will bring so many advantages for use and can be installed in any 1.5" outlet fitting.

Choosing this new technology will open new doors on pool lighting : different colours according to the area of the pool, colour changing for special occasions, easy and quick wintering of the lights. Everything you cannot do with a standard pool light.

<http://eu.ccei-pool.com>

## CCEI BLEU ELECTRIQUE

### MID-BRiO

With Mid-BRiO, discover a new generation of lights that are more compact, more powerful and have a wider light beam angle! A combination of many technologies, the Mid-BRiO offers an unrivalled power/light/size ratio in the swimming pool market. Light up your pools with a light that has a diameter of just 75 mm and delivers 2,400 lumen. The Mid-BRiO fits into standard 1.5" wall conduits and offers a light beam angle of up to 160°: no more dark spots in the pool!

<https://eu.ccei-pool.com/fr/content/34-mid-brio-projecteur-ultra-puissant-et-compact>

## CCEI BLEU ELECTRIQUE

### TILD - a smart, easy-to-wire control panel

The Tild solution is a complete pre-wired control panel that gives you control over filtration according to the water temperature and risk of frost, and allows you to control the LED lighting or program an auxiliary output intuitively via your smartphone!

With lots of options and capabilities, Tild is also equipped with a heat pump outlet and pre-wired connections for control of the water level and pool cover. With Tild you can offer your customers a control panel that meets their needs, but which is just as easy to install and connect as a standard panel! With Tild, you are choosing a control panel that your customers will love!

<https://eu.ccei-pool.com/fr/content/33-tild-coffret-connecte>

## CIE SALINS DU MIDI SALINES EST

### ZENAÉ

Our Zenaé's baths are purifying and relaxing moments. The magnesium is able to relax your mind, calm your muscles and joints. The magnesium is harvested in Provence (South Est of France) in the middle of an exceptional ecosystem : the salt marsh of Salin de Giraud. Once a year, under the cold winter effect, an incredibly pure cristal is getting formed : the magnesium sulphate. Its relaxing effect has been known for centuries and is far beyond compare.

<https://www.experts-eau.com/nos-magnesiums-marins-zenaé>

## CF GROUP

### LIVEPOOL - The mobile application that makes your pool smart and connected!

With LivePool and its connected equipment, improve your performance and efficiency while simplifying your customers' lives! With its practical and easy-to-use features, the free application simplifies daily life and allows you to enjoy the pool even more.

<https://www.my-cfgroup.fr>

## CF GROUP

### CFDOME - Pool work-site inflatable shelter

« Pool'Up » becomes « CFDome ». A real shelter for your swimming pool construction and renovation work-sites, CFDome protects against wind and rain.

Inflated thanks to its blowers integrated into the structure, the air gap between the walls also provides excellent thermal and sound insulation, particularly useful for installing watertightness. CFDome is very resistant and even few tears are not enough to impact the good functioning of the Dome. Easily transportable in a van, it sets up in less than 5 minutes.

<https://www.my-cfgroup.fr>

## CF GROUP

### TIXIT - above-ground slatted cover - Pool sound option

A modern and high-tech design to sublime a garden.

Our Tixit above-ground automatic slatted cover and its new "pool sound" option bring elegance as well as innovation thanks to its sleek end-stands which perfectly include two Bluetooth speakers.

<https://www.my-cfgroup.fr>

## CF GROUP

### VITALIA PREMIUM & COMFORT PUMPS

CF Group France presents its 2 new CFGroup filtration pumps: efficient, as well as...

Our teams have been selling and repairing pumps of all brands for 45 years. So when it came to creating our own Vitalia filtration pumps, we capitalized on our expertise by selecting the best technologies and the most suitable components to offer you our range of Vitalia Premium & Vitalia Comfort pumps.

<https://www.my-cfgroup.fr>

## CF GROUP

### SWITCH CONNECT - Connected Digital Timer 2.0

It replaces the adjustable pin clock and allows a smartphone to control the pool. Available for any standard control box equipped with a DIN rail, it will quickly transform the swimming pool into a connected and intelligent swimming pool. You and your customer will in fact be able to control, via the LivePool mobile application, the filtration pump, the UnderWater Lights in the pool, as well as a booster pump. Works with the home wifi network.

<https://www.my-cfgroup.fr>

## FLUIDRA

### CHLOR'IN

A chlorinator without salt in the water, a revolution in pool water treatment!

#### Advantages:

- Simple installation for all types of pool; eco-friendly, unrestricting water treatment; the comfort of bathing in clean water.
- Disinfected, soft water - giving you total freedom!

[https://pro.fluidra.com/fr\\_fr/](https://pro.fluidra.com/fr_fr/)

## FLUIDRA

### OCTEO by AstralPool

For 2021 AstralPool has created two new end support models for automatic above-ground covers: SVELTEA & OCTEO. Zoom in on OCTEO: the new end support that modernises AstralPool's range of above-ground automatic covers!

Made in France, the OCTEO model was designed in collaboration with a professional design office. Its modern, pleasant and streamlined form evokes an infinitely contemporary feel. The 4 colour combinations were created in perfect harmony with the trend presentation guides produced in the highly-popular pool decoration sector.

Suitable for pools with internal dimensions up to 7.5 x 17m, OCTEO is a motorised roller system with end travel sensors and interlocking with the salt chlorinator.

[https://pro.fluidra.com/fr\\_fr/](https://pro.fluidra.com/fr_fr/)

## FLUIDRA

### Z550 iQ heat pump from Zodiac®

A pioneer of Inverter technology for pools, Zodiac® continues to innovate and this year is launching a connected version of its Premium heat pump solution: Z550iQ

Z550iQ heats and cools the water in private pools. Equipped with the Heatselect technology, the Z550iQ heat pump adapts its operating speed to the power requirement and the mode selected by the user: Boost (maximum power for a rapid rise in temperature), Smart (automatically adapts its power to the conditions), Ecosilence (reduced power). The Full Inverter technology combined with the Heatselect modes therefore guarantees water at an ideal temperature, whilst providing constant control of the energy consumption and the sound level around the pool. Z550iQ also ensures user comfort thanks to a light indicator on the facade providing immediate visual information about the operating status (heating/cooling/error alert/mode) and the level of power provided.

[https://pro.fluidra.com/fr\\_fr](https://pro.fluidra.com/fr_fr)

## FLUIDRA

### Filtering skimmer with cartridge by AstralPool

AstralPool presents pool professionals with a new filtering skimmer with unrivalled performance. **Advantages :**

- A 2-in-1 solution
- Quick, easy installation, but also economical to use
- White or coloured to blend in perfectly with your pool
- For concrete, liner, fibreglass and panel pools

Made in Europe, this comprehensive «skimmer+cartridge» solution is easy to install and helps professionals save precious time during pool construction (available for concrete, liner, fibreglass and panel pools).

[https://pro.fluidra.com/fr\\_fr](https://pro.fluidra.com/fr_fr)

## KLEREO

### Technical local Bioclimatic Pool by Klereo

With the technical local Bioclimatic Pool by Klereo, the pool is managed automatically and intelligently. Objective: to offer the user an easy experience with his pool, while controlling his consumption.

The Klereo Kompact, Klereo Flo and Klereo THERM electronic control units are equipped with the K-link communication bus which allows interoperability between the different functions of the pool: filtration, water treatment, heating, lighting and other auxiliaries.

Klereo Connect allows remote control thanks to an advanced and intuitive interface through a connection to the Klereo cloud, a precious tool for the pool owner. The consumption of electricity, water and maintenance products are counted and displayed for a better monitoring of the pool. A permanent diagnosis allows to trigger protections in case of malfunction.

<http://klereo.com/bioclimatic-pool/>

## NEXTPOOL

### SLEFEEX BY ABRIBLUE

Selfeex is an automatic submerged cover locking system that operates mechanically. It requires no manual interventions, so no risk of forgetting or improper operation! Mechanical strength and corrosion resistance. Stand-alone, no manual interventions required. Adaptable to existing submerged covers, The Selfeex system is composed of a 1st part (the lock) which is built into the first 2 cover slats (opposite side to the roller) and a 2nd part (the wall hook) fixed to the pool. The principle: when the cover approaches the pool wall, it pushes the lock to harpoon the wall hook and thereby locks the pool. Unlocking occurs when the wall hook is automatically released when the cover is withdrawn.

<https://www.abriblue.com/nouveautes.aspx>

## NEXTPOOL

### Electrolysis vessels Stérilor

Innovation, quality, simplicity : Three values that naturally accompany the significant technical changes in these electrolysis vessels.

<https://www.sterilor.com/nouveautes.aspx>

## POOL TECHNOLOGIE

### JUSTSALT PRO CONNECT

JustSalt Pro Connect is a smart 3-in-1 device. Salt chlorination, pH regulation and ORP control are the three technologies that all fit into this single box.

Part of the new Natural Pool Series range of treatment appliances launched by Pool Technologie, the Justsalt Pro Connect device is full of innovations and functions that allow your device to operate autonomously and interactively. Guaranteed comfort and calm!

<http://pool-technologie.com>

## SCP EUROPE

### InverX pump

An exclusive and revolutionary solution that combines the power of the Inverturbo (Patented by Fairland) and its silence. Enjoy 28°C in the pool all year round for less than 2€/Day!

Aluminum alloy design, integrated WiFi and 3-mode intelligent control panel: Booster/Smart/Silence.

**The advantages:** the Inverturbo is both powerful and silent, and can be used at temperatures between -15°C and 43°C ambient air, with heating up to 40°C and a flow indicator (easy to adjust the By Pass).

<https://www.swimmingpool.eu/fr/produits/22471-pompes-a-chaleur-garden-pac>

## SIREM

### SWIMEO, counter-current swimming system

The new generation counter-current swimming system which turns your pool into a swimming center. A built-in product to be set-up in your new pool, easy to install, aesthetic and very discreet.

With SWIMEO you expand your pool without increasing its size.

<https://www.swimeo-sirem.fr/>

## WALCHLI

### AGYS AQUAGYMSYSTEM

Unique and complete in itself, it turns your pool into a sports room. Not to be found elsewhere, the AGyS is the answer to your need to stay constantly active in the water.

The AGyS allows you to take physical exercise in the water, an environment that avoids applying stress to your joints and therefore an exercise option that does not cause injuries in the same way as other activities on hard surfaces such as running.

<https://www.a-gys.com/fr/>

## YNEOM

### YNBLUE PLATINUM

YnBlue Platinum is the companion of any swimming pool professional.

YnBlue Platinum allows you to automate and manage your pool park remotely

- Complete set ready for installation
- Simple installation and use
- 2 Integrated dosing pumps;

# THE FPP OFFICIAL PARTNER OF PISCINE GLOBAL EUROPE

---

With more than 1250 member companies, the FPP is the only professional organisation representing the pool, spa and pool shelter sector. Its members are mainly pool builders/fitters as well as equipment manufacturers and companies providing maintenance and other services. It is also the leading professional federation in the field of pools in Europe.

It unites, defends, represents, professionalises and promotes pool sector players, in particular its 1000 specialist member companies who, in electing to join, have chosen an approach aiming to defend the interests of their profession and their business.

Its key missions are to promote swimming pools and its members to consumers, professionalise the industry players and represent and defend professionals in their contacts with public authorities and the press and provides high quality and proximity services to its members (personalised legal advice).

The FPP provides its members with regular newsletters, technical and contractual documents, market studies and consumer studies. It has drawn up a bold, precise charter of commitment broken down into 5 chapters, which has been tested on consumers.

The FPP has created the Propiscines quality label, which has already been awarded to 450 companies in France. The goal of this label is to professionalise and raise the profile of committed, trained, qualified specialists who undertake to comply with certain conditions. The "qualified" and "certified" levels are awarded subject to certain conditions being met, mainly by Socotec Certification.
